Quality & beauty for life

New Collection

Creative And Environmental
Interior Solution Provider

Management Message

We attempted from day one to supply the market with a product meeting our customers' requirements. We produced high-quality goods and stayed by our friends' side because our main objective was to be a reputable and trustworthy long-term producer. At present after a decade of endeavor and experience, we have managed to provide the customers with new products matching every preference and taste by bringing quality and beauty to their lives. We are confident that improving quality, delivering promptly, and using state-of-the-art technology have paved the way for attracting the customer's satisfaction and therefore resulting in the continued reputation of the Organization.

Company's History

ANG Industrial Group, which relies on 30 years of effective engagement of its founder in production and industrial activity, was founded in 1993 as a trading company and has continuously launched industrial production since 2007. Asia Negar Golsar was established in 2007 at a 10,000 sqm area factory in Shokouhieh

workforce, advanced equipment, and state-of-the-art technology together with technical knowledge of the industry, it gradually provided the market with new products such as PVC and high gloss plates commensurate with the customers' needs and preferences, and eventually, it managed to own a massive share of the local market through the presentation of high-quality products with competitive prices. In 2011, when the market welcomed new products, ANG Company started constructing a new factory in line with its pre-determined goals. The new factory which is 30,000

interior designing in Iran by introducing this product. This product has replaced interior construction stones and has contributed to lighter buildings. The unique features of this product encouraged the local architects and interior designers to welcome it.

Export of Products

At present, ANG company, benefiting from experienced workers and experts and using modern European technical knowledge and machinery, as well as obtaining quality and management standards (ISO 9001:2015), (ISO 14001:2015) and (ISO 14001:2018):) is manufacturing products and expanding its share in regional and world markets. Relying on the high technical ability of its employees, this company has been able to gain a good share in the export of products to neighboring countries.

Quality of Products

Asia Negar Golsar Company, by establishing and operating specialized laboratories, a quality control unit for continuous control of its products and obtaining quality and management standards (ISO 9001:2015), (ISO 14001:2015) and (ISO 14001:2018) can compete with similar foreign produced and presented to the market products.

Economic Justification

Today, products made of MDF and PVC with various laminations are considered a suitable option for interior architects to create a luxurious and beautiful space in construction projects. These materials provide the possibility for designers to overcome construction and calculation limitations by spending the minimum cost and creating interior decoration by using materials that are compatible with nature and have various applications.

Introduction of Company's Products

- MDF with High Gloss Lamination
- MDF with Melamine Formaldehyde Resin
- MDF with EPL Lamination
- MDF with HPL Lamination
- Cabinet Countertops with HPL Lamination
- Single-layer PVC Foam Boards
- Three-layer PVC Foam Boards
- PSD (PVC Stone Decoration)
- Aluminium Profiles

PVC Foam Panels

PVC panels, made from a combination of PVC materials and stone powder, are recognized as the best alternative to wood and MDF due to their outstanding resistance to water and moisture. These panels are available in single-layer and three-layer options, as well as PVC panels with various laminates, and they offer a combination of beauty and durability for different applications.
